

Dear Sir/Madam

It is our great pleasure to inform you that the **1st International Conference on Disposable & Bio-Polymers (BioDisPlast) “Production & Technology”** will be organized by the **Association of Iranian Producers of Disposables (AIPOD)** in cooperation with **Independent Inc. for Contemporary International Conferences & Fairs (IICIC)** and technical and scientific support of **Polymer Industry Media International (PIMI)** on July 18-19, 2017 in Iran Polymer and Petrochemical Institute (IPPI), Tehran.

Conference Main Goals:

- Accessing to proper approaches for presenting Iran’s capabilities in the field
- Improving and development of consumer and specialty disposable goods
- Attracting Iranian and international investors for launching innovative products, exportable to other countries via partnership with the countries taking advantage of diverse high technology with the purpose of establishing/optimizing the manufacturing units in Iran
- Cooperating with relevant international public and private organizations, industries and universities with the purpose of saving our planet through improving the Iranian production specially with the context of products degradation and utilization of true biopolymers

We intend to enhance the technical and economic contents of the conference for providing the most convenient and proper environment for vast presence of Iranian officials and managers of Petrochemical Industry, Ministry of Industry, Mine and Trade, Environmental Protection Organization, Environmental Protection Office of the Tehran’s Municipality, Ministry of Health & Medical Education, Food & Drug Bureau of the Ministry of Health, Iranian National Standards Organization, Academicians as well as 100’s of managers and experts of pioneer Iranian and international trade and industrial companies and brokers in raw materials, machinery and finished goods. This event will definitely create a dynamic opportunity for all involved stakeholders and activists, involved in various sectors of consumer and specialty disposable goods including medical devices from converting industry for developing domestic production as well as enhancing interactions with global technology owners.

Conference main Topics:

- 1- Consideration of all capabilities and potentials of the Iranian Industries in production of Disposables including (Raw Materials, Tools & Moulds, Processing Machinery and Domestic & Regional Markets).
- 2- Investment potentials and opportunities in launching the new disposable manufacturing lines for consumer and specialty products in new production units or optimization of present industries
- 3- Creation of opportunities for high-tech owners/countries for independent investment and/or partnership with Iranian companies by utilization of diverse investment

methods such as joint venture, bilateral, under licensed production or any other typical financial partnerships

- 4- The role of modern technologies in near future developments of this industry and expansion of the production and marketing chains of these new products, with consideration of the environmental issues
- 5- Assessment of the national and exporting markets of specialty and consumer disposable goods, the global market situation and the role of new materials in market development for disposable

So far the following 3 specialized panels on following issues have been planned to be held concurrently with this conference:

- **Investing in new projects for producing disposables with degradable materials**
- **Investing for production of new materials and their advantages for exporting to other countries**
- **Investing for development of Iranian made machinery with innovative facilities**

The other panels are under consideration. Additionally an exhibition will be held with the active presence of national and international companies for presenting their latest scientific, technical and research capabilities in these industries.

We would like to invite your esteemed company to take part actively at this event, which is going to be held for the first time in Iran and the Middle East region as sponsor, speaker, exhibitor and participant. If you need any further information, you are kindly invited to visit our website on <http://bdpiran.com/?lang=en> or contact the Secretariat.

Looking forward to meeting you in our event.

Best regards.

Mehdi Poshtkouhi
IICIC CEO &
Conference Organizer
